Standing: Public notice. Correspondence under it is confidential.

1. Purpose of the site

zamanadil.com publishes the academic profile, publications, research reviews, and opinion of Dr. Adil Zaman. The material is offered for academic, educational, and general information. It is not legal advice, electoral advice, or a professional consultancy opinion delivered to a particular client.

2. Personal capacity

Research reviews and pieces in Opinion & Blogs are the analysis of their author. They do not state the position of the University of Gujrat, any journal, any political party, or any public institution. A publication record describes a scholarly work; it does not, by itself, speak for the publisher or the co-authors.

3. Original sources

A research review discusses published scholarly work. It is not a substitute for the original paper, data, or book. Readers who need the authoritative text should use the journal, DOI, or publisher link given on the record.

Reasonable care is taken with names, dates, and links. Errors can remain. Where a decision depends on a source, the original document should be checked.

4. Reading languages

Publications, research reviews, and opinion pages may offer a reading language. Where the text was not written in that language, the screen can show a live translation. The published text remains the text of record. A live translation is an aid to reading and is not a certified or official translation.

5. External pages and third-party rights

Links to journals, repositories, and other websites leave zamanadil.com. Dr. Adil Zaman does not control those pages and is not responsible for their content or availability.

Titles, abstracts, and quotations from other authors remain the property of their rightsholders. They are identified so the source can be found. Nothing on this site assigns those rights to the reader.

6. No warranty

The site is provided in good faith. It is not warranted as complete, current, or fit for a particular decision. Dr. Adil Zaman is not liable for loss arising from reliance on a review, an opinion, a link, or a live translation where the reader had the opportunity to consult the original source.
